DETAILED ACTION

Response to Amendment

1 Applicant amendment overcomes §102(b) rejection of claims 1-6 and 8-17 and the rejection is withdrawn.

Applicant amendment overcomes §103(a) rejection of claims 11 and 12 and the rejection is withdrawn.

Allowable Subject Matter

2 Claims 1-6 and 8-17 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites, in part, "calculating a difference between the first averaged sampled pressure value and the second averaged sampled pressure value and providing a signal if the difference reaches a pre-determined threshold value indicative of the level of fluid remaining in the container". This feature **in combination with the remaining claimed structure** avoids the prior art of record.

Claims 1-6 and 8 depend from claim 1.

Claim 9 recites, in part, "programmed to compare the stored first averaged sampled pressure value with a second averaged sampled pressure value calculated from signals received during a second selected interval and provide a container empty signal if the comparison results in a difference between the first and second calculated averaged sampled pressure values reaches a predetermined threshold". This feature **in combination with the remaining claimed structure** avoids the prior art of record.

Claims 10-17 depend from claim 9.

It is these limitations, which are not found, taught or suggested in the prior art of record, and are recited in the claimed combination that makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3 Applicant's arguments, see amendment, filed 30 October 2006, with respect to claims 1-6, 8-10 and 13-17 have been fully considered and are persuasive. The §102(b) rejection of claims 1-6 and 8-10 and 13-17 has been withdrawn. Further, applicant's arguments with respect to claims 11 and 12 have been fully considered and are persuasive. The §103(a) rejection of claims 11 and 12 has been withdrawn.
